

Solutions in Waste Management

Quality Policy

Roydon Group will ensure that our waste services meet our customer's expectations, contribute to our customers' environmental performance and comply with all relevant regulations and legislation.

Specific quality objectives will be set and reviews through our management review processes. To help achieve these, we will maintain a quality system that meets BS EN ISO 9001 – "Quality management Systems – Requirements".

We must strive to continually improve our performance by regularly evaluating our services and identifying actions to ensure that our objectives are achieved and that problems are prevented.
